

# PRECISION MACHINING SOLUTIONS

## Aerospace

**Global Precision Products, LLC is an AS9100D certified, ITAR registered contract manufacturer of tight tolerance (+/-0.0002") precision machined products for aerospace applications, committed to machining technology, quality management and continuous improvement.**

Your complex and demanding contract manufacturing requirements are addressed by carefully listening, then putting plans into action to meet or exceed your expectations and deliver your products to specification on time, every time. We are committed to staying competitive by investing in the latest cutting-edge technology and utilizing this technology in the most cost-efficient manner.

**Global Precision Products, LLC is a turnkey contract manufacturing service provider.** Along with precision machining and corresponding quality systems, we take pride in managing material sourcing (standard metals and plastics, as well as exotic materials), new product introduction processes and product validations, and build-to-stock inventories and logistics, all in our climate-controlled, highly automated manufacturing facility.

### Capabilities

- Swiss CNC Machining
- Micro Swiss CNC Machining
- CNC Milling
- CNC Turning
- CNC Turn Milling
- Fully Automated Machining/Inspection Cells
- Modern Metrology Inspection/Data Collection
- Outside Services – Heat Treat, Grinding, Plating and Engraving
- Automated Component Cleaning System
- Design for Manufacturability
