

PRECISION MACHINED COMPONENTS

AS9100D
ISO:13485
ISO:9001
ITAR
Nadcap

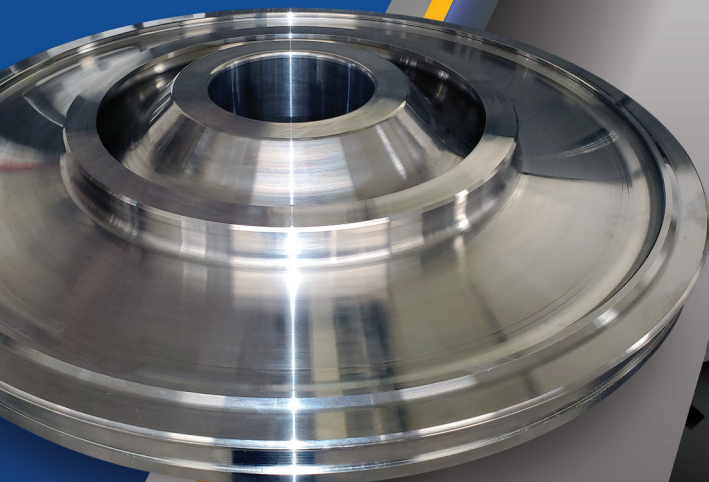

Aerospace • Defense • Energy Test & Measurement • Medical Optical & Imaging

- State-of-the-art CNC machines
- Quantities from 10 to 100,000+
- Stocking plans available
- In-house welding, fabrication & component assembly
- Swiss & Micro-Swiss CNC Machining
- CNC Turning up to 36" diameter
- Multi-Axis CNC Mill-Turn Machining
- 4 & 5 Axis CNC Milling

Proven track record:

- 98% on time delivery
- Lot acceptance of 99.5%
- Tolerances +/- 0.0002"

Heavily invested in the latest machining & automation technology, including robotics
